Organizational Overview

Conceived as a transnational democracy solidarity network, WADEMOS aims to mobilize, coordinate, and leverage the collective power of civil society and other pro-democracy actors, resources, and opportunities within the West African region to advance, defend, and reinvigorate democracy and promote democratic norms and reforms in the sub-region, including through engagement with regional institutions and instruments. WADEMOS seeks, among other things, to build and sustain solidarity within civil society, media, and social movements, including women and youth-led activists and organizations, to respond effectively to the urgent problem of democratic backsliding in the ECOWAS region.
